

Coastal risk flooding

The image shows a screenshot of the Coastal Risk Australia website. The background is a photograph of a flooded park with a playground and a gazebo. The website has a blue header with the title 'Coastal Risk Australia' and the subtitle 'Predicted Coastal Flooding Resulting from Climate Change'. Below the header are three buttons: 'Background', 'Guide', and 'Useful Links'. A search bar with the placeholder text 'Where do you want to look?' and a magnifying glass icon is positioned below the buttons. At the bottom, there is a horizontal scroll bar with six map thumbnails, each labeled with a location: Fremantle, Melbourne, Cairns, Sydney, Byron Bay, and Port Douglas. The thumbnails show the predicted coastal flooding for each location, with blue areas indicating the flooded regions. Navigation arrows are visible on the left and right sides of the scroll bar.
